

MANUAL REWIND REELS

PHR 3000 Series

Engineered for durability and performance, this Stainless Steel Heavy-Duty Hose Reel is built to withstand the toughest environments. Constructed entirely from high-quality stainless steel, it resists corrosion and ensures long-lasting reliability in demanding applications.

Equipped with a premium Mosmatic swivel, this reel provides smooth, leak-free operation, even under 1000PSI. Designed for fire hose and high volume applications, it is the ideal choice for industrial plants, firefighting, and heavy-duty washdown setups.

- Rated up to 1000PSI
- Fitted with Mosmatic WDEI swivel to withstand high heat applications
- Made with S316 stainless steel
